

for transitional kindergarten

for transitional kindergarten teachers

california's universal tk expansion has placed thousands of teachers in classrooms with four and five year olds, many of them moving from kindergarten or preschool. the daily writing, handoffs, conferences, behavior support, weekly plans, is the same shape either way.

what tk teachers reach for

- daily family handoff at pickup, one minute.
- conference write up, fifteen minutes.
- behavior support scripts for the situations that come up in a tk room.
- weekly planning grid that is reorderable and hideable.

what it is not

not a curriculum and not a replacement for the district's assessment system. it sits next to whatever the district already uses.
